

Halsey Street wastewater services upgrade

In late June 2017, works will commence in Halsey Street to upgrade the local wastewater network responding to the growth in Wynyard Quarter. Construction will take place along the western edge of Halsey Street between Victoria Street and Fanshawe Street. The works are scheduled to take three months to complete.

Between June – October

- Access to Victoria Park and local businesses will be maintained
- Access from Victoria Street into Halsey Street will be restricted to bus and carpark access only
- Halsey Street southbound traffic will be maintained with two lanes
- Halsey Street businesses remain open during construction
- Works are scheduled to occur between 7am and 7pm Monday to Saturday

Due to these works we expect traffic delays. Please use alternative routes where possible and plan your journey in advance.

Any questions regarding the project?
